POLISH TECHNICAL REVIEW

PUBLISHERS OF TECHNICAL PERIODICALS FOR THE CENTRAL TECHNICAL ORGANIZATION (NOT)
00-950 Warsaw, Czackiego 3/5, P.O.B. 1004, Tel. 39.11.34. Issued in English, French and German

CONTENTS

EDITORIAL

The engineering, electrotechnical and electronic industries at the threshold of the new five-year plan 2

CHEMISTRY

500 000 tons of sulphur per year 4

A RETROSPECTIVE VIEW

The main achievement of 1974 5

MACHINE TOOLS AND METAL WORKING

Computer-aided programming of machine tools with numerical control 7

Twist-drill automatic angular rolling machines 9

Turret drill type WAB 25 N 12

Type URC-1 pipe cutter 14

Chassis presses 13

Roll stands 14

Type UCR-1 pipe cutter 14

Gravity welding 15

ELECTRONICS AND NUCLEAR TECHNOLOGY

The R-30 digital computer 17

Thyristor low frequency changers for metallurgical roller tables 16

Fast mirror spectrophotometer 18

Gamma radiographic equipment 19

SHIPBUILDING INDUSTRY

The Polish shipbuilding industry in 1975 20

INDUSTRIAL COOPERATION AND EXPORTS

Cooperation of the Polish building machinery industry with western firms 22

Industrial cooperation in power-station boilers designing 24

Polish-Swedish industrial cooperation 26

The export of paper-making machines 27

PATENTS

ECONOMIC SURVEY 30

Poland's participation in international fairs and exhibitions during the second half of 1975 32

International technical conferences to be held in Poland in the second half of 1975 32

NEW BOOKS

SCIENTIFIC AND TECHNICAL NEWS IN BRIEF 8, 19, 21, 25, 28

The main achievement of 1974

The Editorial Board of the PTR has interviewed a number of known economic leaders who are members of the Programme Committee of our Review asking them to describe the most important achievement of their enterprises in the past twelve months.

The issue brings statements by export department directors of the Ministries of the Engineering and of the Heavy Industries, managers of foreign trade enterprises dealing with the sales of building machinery, complete industrial plants and electric engineering.

The R-30 digital computer

The Digital Computer R-30 designed and manufactured by the Electronic Equipment Factory MERA-ELWRO in Wrocław is part of the United Computer System (JS EMC).

R-30 is a medium-power computer whose sub-assemblies have been based on the most recent achievements of the Polish industry. The article gives a description of the machine, its peripheral equipment and of the operational system.

The Polish shipbuilding industry in 1975

Plans for the current year provide for a considerable increase of the number of ships to be launched in 1975 as well as for qualitative improvements resulting from a better adjustment of the Polish industry to changed conditions on various markets as well as new transport requirements. Polish shipyards will build ca 30 types of ships, half of which are prototypes.

Among the new vessels, mention is due to Ro-Ro ships, a new type of container ships, tankers for the transport of chemicals, ships of the LPG type and seiners. The production of ships for export will grow at a particularly rapid pace. The current year will be also a period of further modernization and extension of shipyards and plants cooperating with the shipbuilding industry. The total investment outlays earmarked for this industry in 1975 will exceed twice those of the whole five-year period 1966-1970.

Editorial Board:

B. Doweyko, L. Drecki, S. Gruzewski (Chairman), S. Katarzyński, F. Kubiczek, Z. Makomski, C. Myczkowski, J. Niegowski, B. Perkowski, A. Hanftwurel.

Editorial Staff:

A. Hanftwurel (Editor-in-chief), J. L. Toeplitz (Assistant Editor), S. Hilscher, E. Karska, Z. Schellenberg, A. Witkowski (Editors), S. Zalewski (Editor of the English version)

Translations: P. Dytko, J. Hummel, W. Iwiński, T. Luczaj H., Stępień

Advertising Section: T. Pachnowski

Graphic Layout: F. Barącz

Technical Editor: A. Dziewulska

Subscription orders should be addressed to the "Ars Polona - Ruch", 00-950 Warsaw, P.O.B. 1001, Krakowskie Przedmieście 7 or to one of the representatives of this firm abroad.

The annual subscription rate (12 issues) amounts to US \$ 12.- or the equivalent in other currencies. In the socialist countries catalogue prices of the local distribution centres apply.
