The XXVII Conference will be held on 15 of September 2021 in on-line mode.
Beginning at 10:00 o'clock. We will provide a link a week before the conference

Principal scientific topics of the Conference:

- technological processes in animal production with the maintenance of animal welfare,
- determination of the future works concerning adaptation of technological standards in animal husbandry and the elements of infrastructure to the EU requirements and environment protection,
- development of the technologies ensuring proper conditions for the animals as well as the work safety for operating personnel,
- improvement of the livestock buildings as an element of infrastructure in modern development for rural area,
- gaining the biogas from natural manure and crop production,
- acidification methods of slurry as an action limiting the emission of ammonia,
- development of the livestock buildings, low-carbon and low-energy.

The conference fee is PLN 400. The charge includes the cost of a monographic materials (including publishing your paper in the form of a chapter monograph), editorial preparation, printing, sending the monograph and ensuring on-line transmission. We encourage you to prepare an article in the form of a monograph chapter (20,000 characters).

Persons who pay the fee by May 28, 2021, can take advantage of a 50% discount on the publication of an article in the Special Issue "Biogas Production Processes from Biomass" in the Processes journal (IF 2.78). If interested, please contact us by e-mail

Detailed information on the terms of publication:
